1. Introduction

1.1 Purpose

This Traceability Matrix defines the relationship between the requirements in the Software Requirements Specifications (SRS) and the system's design components. It ensures that all requirements from the SRS are implemented correctly.

1.2 Scope

This document will map all the requirements for Bob's Pizza Emporium application, including login, ordering, administrative controls, and interface behavior. The design aspects, including GUI components, database functions, and menu configuration, will also be mapped.

1.3 Definitions, Acronyms, and Abbreviations

Acronym	Meaning
GUI	Graphical User Interface
SRS	Software Requirements Specification

1.4 Document References

Document Title	Version	Date	Author(s)
Software Requirements Specification	1.0	10/2/2025	Joshua Swanson, Noah Allen, Alison Michailof, Kelly Byrne, Caelyn Ruiz

1.5 System Overview

Bob's Pizza Emporium is a Windows-based application used by employees to take and process pizza orders. The system will handle login, menu display, order configuration, and administrative controls for account management.
